

AmbedkarGPT - Assignment Summary

This project builds a RAG-based Q&A system over a short Ambedkar speech using LangChain 1.0.5, ChromaDB, HuggingFace embeddings, and Ollama (phi3:mini).

Files included:

main.py
speech.txt
README.md

Setup:

1. Install Ollama and pull phi3:mini: 'ollama pull phi3:mini'
2. Create/activate conda env and install requirements
3. Run 'python main.py' to start interactive CLI

Notes: Use phi3:mini for low-RAM machines.
